Dear Brian:

It has been a while since all The Owners have come back. All remarks have been very favorable. With keeping that in mind, I would like to write a letter of reference for your company. As part of my letter, I would like to list all the areas of work that your company has completed:

- 1) Building Painting- cleaning, removal and repairs to stucco
- 2) Sealant- removal, cleaning, with replacement at windows and joints around building
- 3) Window Protection- covered every window one stack at a time
- 4) Aluminum Rails-mechanically sanded in place on our building, followed by a professional adhesion process from the paint manufacturers with guaranteed quality long-term adhesion, doing this in the field on our building. With the end result showing as high a quality as a factory finish.

These items listed with the professional staff you have to support the crews. I have to say cannot be beat. My recommendation is for all my colleagues and friends that are coming close to painting the Building or any of the Jobs from the list above. Should feel free to come over and take a tour, to be able to see the Outstanding Quality of work your team has provided for this building.

Sincerely,

Dan Marquitz, Building Committee Chair and Board Member

Pamela Basler, CAM, CFPM
