Mr. Brian Peachey
Florida Structural Group
PO Box 329
Estero, FL 33928

Brain,

First, let me say this is a long time coming. A letter of thanks coming from me to you is long over due.

The work that you did for Martina Towers was extremely well received by both the owners in the complex as well as the Board of Directors. Professional all the way. Right down to the paint you supplied for the common room that should have been the responsibility of another vendor. It's safe to say, you will be high on the list of contractors of any further work needed there.

Then there is Royal Pelican. Again, the Board of Directors was extremely happy with the work you did there as well. Special requests for add-on items were met with your usual "get it done" attitude and the complex has never looked better. Also again, you can count on more contracting jobs from this complex.

It makes my job a lot easier knowing that you and your company are there for the Condominium Associations I manage and I will continue to bring you in for a quote whenever I can.

Do not hesitate to add my name to your list of customers. I will be happy to refer you any chance I get.

Thanks again,

Scott Thompson, CAM
Alliant Property Management.
