RE: Renovation Project Gulfside Place

Subject: Letter of Recommendation

To whom it may Concern:

It is with pleasure that I write this letter of recommendation for Florida Structural Group. I found them to be very professional and proficient in their project management. The quality of their work exceeded industry standards. They were amendable to any problems that arose.

The 1.4 million dollar project of our 84 unit condominium complex included concrete restoration; stucco refacing, painting and lanai screen enclosure replacement.

I have been in and around construction for more than 40 years and can count on one hand the general contractors I would not hesitate to use again. Florida Structural Group is in that count.

I would highly recommend Florida Structural Group and can be contacted at the number listed herein for any additional consultation.

Sincerely,

Robert J McBride
Board President
